INSURGENTS ARE FLYING

Their Defeat Is Complete at Ciudad Bolivar.

DEAD ON EVERY SIDE

In Some Sections of the City Resistance Is Still Being Made, but the Success of the Government Is Assured.

(By Associated Press.)

CARACAS, July 21.—A messenger arrived here by steamer and train from Ciudad Bolivar says the city was captured by the government troops at 8:30 this morning (Tuesday).

Since the last dispatch was sent to the Associated Press at 3 o'clock yesterday afternoon the battle between the revolutionary forces at Ciudad Bolivar and the Venezuelan government army, commanded by General Gomez, has been a deadly one.

The government troops entering the city slowly. The city appears to have been struck by a cyclone.

At 3 o'clock in the morning, when the inhabitants of the commercial and foreign parts of the city, near the Alameda, saw the advance of the revolutionary troops, they all abandoned their homes and sought refuge in other parts of the city, crossing the streets amid a hail of bullets and shells.

Many men in trying to protect the women fell, struck by bullets. In the middle of the street the government troops, however, acted with humanity, especially the forces of General Rivas, who, fighting bravely, was the first to order the attacking force to be merciful.

The government troops soon after captured the north side of the Alameda, and the public park of Ciudad Bolivar, which has been defended by a double row of barricades. Behind one of these were found more than thirty dead soldiers lying on top of each other, while wounded men were seen on all sides.

The soldiers on both sides have had no food for two days, no ambulances are being used and the fighting still continues.

The Dalton block, the property of the United States consul, where all the leading German and French firms reside, is now being attacked.

The fall is the center of a terrible resistance. All the defeated revolutionists have concentrated there. It is estimated that more than two hundred men have been killed in that vicinity. The capital is still in the hands of the revolutionists, but the complete success of the government forces is assured.

SOME LITTLE DISORDER

Big Excursion To-day to West Point

Delightful Dance Given by the Misses Weisiger—Cases in the Court—Personal Mention.

Manchester Bureau Times-Dispatch, 1113 Hull Street.

Nothing happened in Manchester last night to indicate that the removal of the troops will have any harmful effects upon the life of the community. Stones and torpedoes figured again at odd times, but with no serious results.

With the present police force it is manifestly impossible to prevent the various and sundry misadventures, which usually take the form of a riot, which have been an accompaniment of the street car strike. Only two specials have been added to the force, already small, and there are some twenty miles of streets and fifteen of alleys to be covered. Furthermore many people do not care to report the offenders who choose to throw stones and torpedoes.

The police are alert and vigorous in putting down any disturbance which comes to their attention, and under the leadership of the chief of police, throughout the strike trouble is most warmly commended by many prominent citizens are doing their best to put a stop to lawbreaking of any sort.

Last night there were a few torpedoes and a few stones in Upper Hull Street, but no trouble of any kind was developed. One conductor reported that his car had been hit by a stone and that some things were quiet. Negroes at Fifteenth and Decatur streets grew rowdy early in the evening, but the police went to the spot and gave them certain words of advice which had a soothing effect upon them.

At the LAWN PARTY.

Some small boys gave trouble at the lawn party last night on the lawn of the Stockton Street Baptist Church. A policeman was sent around and he kept the field clear. The party, which will continue through the week, is proving a great success. The programme is changed each evening. Last night Miss Bailey and other local talent were featured in the musical programme. There were also several recitations. The members of the church and the public generally are invited to attend.

The annual excursion of the Fifth Street Church will be run to-day to West Point. There are prospects for a large attendance. The train will leave Manchester at 8:15 o'clock, and Richmond at 8:30. The pastor of the church, the Rev. Asa Driscoll, will be along.

In conclusion, Mr. Buchanan refers to the resolutions handed the board by the former students of St. Albans School at Lexington, Mass. Among other things, these young men say: "Any former opposition to Mr. Miles on the part of the students of this University was based upon ignorance or mistaken opinions as to his character and qualifications, and such spirit of opposition has since undergone a decided change. We believe Mr. Miles to be a man of unblemished character, whose influence and example would prove an inspiration to the student body and a credit to the fair fame of this University."
